I have been in academic publishing for 30+ years. I was a Linguistics major at Stanford in the mid-1970s, then started a publishing career. I knew about T_EX from editors at Addison-Wesley who were using it to publish beautifully set math and computer science books.

Long story short, I started using L^AT_EX for exploratory projects (see website above). I have completed typesetting projects for several journal articles. I have also explored the use of multiple languages in documents extensively. I have a strong developmental editing background in STEM subjects. If you need assistance getting your manuscript set in T_EX I can help. And if I cannot help I'll let you know right away.
